In keeping with tradition

Some things may be thousands or several hundred years old – but they cannot be significantly improved. However, they can be continued at the highest level: That's why we like Steiff's manufacturing concept so much. "Manufacture" as an old Latin term: "manus", the hand, "facere" to do, build or produce something. And if this thought, this concept hadn't already existed, we at Steiff would surely have invented it. Creating something with your hands. Allowing skill, experience and craftsmanship to flow into the creation process. Bringing in passion, commitment and lots of love for detail into the creative process – in order to bring something extraordinary and unique to life. But that's what it is: For us, manufacture is far more than just a fashionable word. Because, true to the spirit of our founder Margarete Steiff, we are fully committed to not only honour the tradition of manufacture, but to continually imbue it with new life. Day after day. With every animal leaving our company so steeped in tradition.

Millimetre by millimetre and thread for thread: simply the best.

Those wanting to create something special and unique of lasting value will need nothing less than the perfect “ingredients”. This not only applies to many other areas but especially to our Steiff manufacture, where we only use “ingredients” of the highest quality: for every Steiff animal, from head to paw. Starting with the thread, the filling material, buttons, eyes and accessories and right up to what is so characteristic for every Steiff animal: it’s “coat” or “fur”, which gives character and form to its appearance. So since 2009 we have been particularly happy to be able to call ourselves the world’s only manufacturer of stuffed toys with its own fabric factory.

Alpaca – soft, silky, opulent

Although the number of alpaca animals in the Steiff range has increased in recent years, the company discovered the material many years ago. Its resurgence in popularity is due to its wonderful feel and tremendous versatility. Alpaca can be used to create both soft Teddy bears and ultra-realistic animals.

Mohair – lustrous, shiny and sleek

This natural material from the wool of the angora goat is the classic Teddy bear material. In fact, it was used for the first Teddy bear ever created. The fibre is both beautiful and durable, which accounts for the amazing number of vintage Steiff creations that appear today in superb condition.

Perfected unique specimen

Characteristics which turn a brand into a legend.

We at Steiff also have good reasons to be proud and happy: after all, the Steiff “Button in Ear” is one of the world’s most renowned trademarks. This world renowned trademark, our “Button in Ear” with the Steiff ear tag, stands for something special, so rare in the hectic days of today: Craftsmanship and creativity, which have firmly established roots and can paint a smile for the future with incomparable designs and innovative products. All Steiff animals from our Collectors’ range are creations of the highest standard, and recognizable by the immaculate workmanship, the quality of the materials, the love for minute details and the legendary trademark: the Steiff “Button in Ear”.

Replicas

The Teddy bears and animals of the replica series by Steiff are a very special and extraordinary species. This means that these true-to-original animals are reproduced exactly according to their historic role models from the Steiff Archives. In order to document this special status, all Steiff replicas have the faithful “Button in Ear” indicating the year in which they were made and, from spring 2017 onwards, a replica ear tag as well. In future, the previous white tag with black lettering will be sewn into the side seam of the product and will contain the article and limited edition number.

Limited Editions

All the animals and Teddy bears at Steiff are very pleased to receive the extraordinary distinction of the white ear tag with red writing because these are produced in a limited edition. This means that only a limited number is available and some are available only in certain countries.

Replicas

A past to touch, experience and love.

It is a fascination which has already made history. A fascination of the here and now – and a fascination with which each and every Steiff friend and collector is continued into the future: the fascination of Steiff replicas. Each and every Steiff animal and Teddy bear has its very own personality, which has its very own story behind it. And this story it would like to tell to its owner and share it with them.

Each Steiff Teddy bear of the limited replica edition is a fascinating entity, an entity which brings the flair of the past into the now: because each replica Teddy bear, from head to paw, fibre for fibre, seam for seam is a faithful recreation of the very first Teddy bear from the very first day. The Teddy bear is lovingly handmade and decorated with traditional tools and in accordance with the original design – as only in this way can nothing but perfection be the result.

New as of spring 2017:

To further emphasise their special status, all replicas as of this year will “bear” – in addition to the faithful “Button in Ear” – a replica ear tag in their left ear indicating the year in which they were made.

Teddy bear replica 1906

Item no. 403224, 40 cm

with squeaker, made of finest mohair, russet, 5-way jointed, head and arms are loosely attached to the body, surface washable, with wooden eyes, limited edition of 906 pieces, stuffed with wood shavings, with "underscored button" made of patinated steel

You are forgiven thinking this lovely fellow has just been discovered in an old dusty toy box hidden away in the attic, an easy mistake! The Teddy bear replica 1906 is an artistic imitation of a Steiff bear from yesteryear dating right back to the heydays of Steiff bears – the year of “Baerle”, who was later given the name “Teddy bear”. Standing 40 cm tall and made of the finest, yet “aged” mohair, he exudes the charm and character Richard Steiff gifted the bears all those years ago. He is stuffed with excelsior, and has a squeaker heart beat and wears a period correct ear tag attached to his period correct “underscored button” made of patinated steel, just as the 1906 original. Only 906 pieces are available – another reason why this bear is unique.

“Little Happy” Teddy bear replica 1926

Item no. 403217, 25 cm

with squeaker, made of finest mohair, brown tipped, 5-way jointed, surface washable, with glass eyes, limited edition of 926 pieces, stuffed with wood shavings, with “underscored button” made of patinated steel

New or over ninety? You are not so sure when take your first glimpse of our Replica “Little Happy” Teddy bear from 1926. Because our Steiff designers have excelled in capturing every magical characteristic of the original. Even his stuffing is excelsior, like the original. His authentic look continues with his glass eyes and loosely jointed head. He even wears a period correct ear tag with ‘underscored button’ made of patinated steel. But be assured “Little Happy” is new, despite the worn out pads and bald spots. Just take a look at the impeccable yarn of recently embroidered nose and the white Replica tag attached to his side. But we all grow old, and “Little Happy” will gladly grow old with you by your side.

Limited Editions

Particularly beautiful. Particularly rare.

Welcome! The Steiff animals from the limited editions welcome you to the Club of Rarities and Special Beauties. How they become members of this exclusive circle? Well, they must have a very distinct, striking personality, these warm, bright and honest eyes, with a penchant for making themselves scarce – and remaining so. That's why we are also a little proud that the "limited" attribute of our animals from our factory also always means "especially desirable" for Steiff friends and collectors. The animals from our worldwide limited special editions always find new friends, owners and a new home particularly fast.

"On a hill above the valley there was a wood. In the wood there was a huge tree. Under the tree there was a hole. In the hole lived Mr Fox and Mrs Fox and their four Small Foxes." - Fantastic Mr Fox

Mr Fox is clever, far too clever for his local farmers, Boggis, Bunce and Bean. Still, even a very clever and cunning fox sometimes gets caught out. When those devious farmers finally locate the whereabouts of Mr Fox's home, it puts him and his family in danger.

But Mr Fox is never beaten. By trapping him and his family inside their foxhole, it looks like Boggis, Bunce and Bean might have accidentally shot themselves in the foot instead. Inspired by Quentin Blake's original illustrations, Steiff bring their quintessential style to the beloved Roald Dahl classic Fantastic Mr Fox with their fantastic interpretation of Mr Fox. "Nobody in the world can dig as quick as a fox!"
